

RESUME SUMMARY

Passionate Computer Engineering student skilled in Data Analytics, Machine Learning, and AI, with projects like an LLM-Based Equity Research Tool and Energy Consumption Analysis. Comfortable with Python and SQL, I enjoy turning data into insights and solving real-world problems.

WORK EXPERIENCE

Data Analysis Intern (Simulation) - Deloitte

Role Focus: Data Analysis

- Analyzed structured datasets to identify trends, detect anomalies, and support business decision-making.
- Applied analytics techniques to solve real-world business problems and assist in fraud detection scenarios.

PROJECTS

LLM-Based Equity Research Tool

- Built an AI tool that collects and summarizes financial news automatically.
- Reduced manual research by automating data collection and summaries.
- Helped investors understand key information quickly and make better decisions.

World Energy Consumption Analysis

- Developed a machine learning project to analyze global energy usage data.
- Identified patterns in energy demand, costs, and possible improvements.
- Showed how data can support smarter energy planning and management.

SKILLS

- Programming & Tools: Python, SQL, HTML, CSS, Pandas, NumPy
- Data Visualization: Matplotlib, Seaborn
- Core Knowledge: Statistics, Probability, Machine Learning

ACADEMICS

- **B.TECH. – Computer Science & Engineering-** CGPA: 6.7
Deogiri Institute of Engineering and Management Studies, Chh. Sambhajinagar (2022–2026)
- **Class XII – State Board-**84.33%
Deogiri College, Maharashtra (2021–2022)
- **Class X – State Board-** 85%
SBOA Public School, Maharashtra (2019–2020)

CERTIFICATIONS & EXTRACURRICULARS

- Data Analytics Job Simulation – Deloitte
- The Ultimate Job Ready Data Science Course – CodeWithHarry
- Complete 2025 Python Bootcamp: Learn Python from Scratch – CodeWithHarry
- AI Tools & ChatGPT Workshop – be10x
- Effective Leadership – HP LIFE Online
- Intra-College Gold Medallist – Badminton
- Organizer – Student Induction Program
